

# WHAT IS THE DIRECT ENVIRONMENTAL IMPACT OF BNP PARIBAS?

For more than ten years, the Group and its teams have been committed to reducing the environmental impact of BNP Paribas within its operational scope. Take a look at some of the key figures from the **2022 assessment!**

## OPERATIONAL PERIMETER =

BUILDING OPERATIONS

BUSINESS TRAVEL

### GROUP EMISSIONS OF CO<sub>2</sub>:

**318,489** t<sub>eq</sub> CO<sub>2</sub>

Which is 1.65 t<sub>eq</sub> CO<sub>2</sub> per FTE ("Full Time Equivalent", 1 FTE being equivalent to a full-time workload), a 50% reduction over ten years! This is equivalent to a Paris-New York return flight (1.75 t<sub>eq</sub> CO<sub>2</sub>).

### WASTE GENERATION:

**17 771** tonnes

Which is 92.3 kg by FTE. 6 times less than the amount produced personally by a person living in France.

### BUSINESS TRIPS BY PLANE, TRAIN OR CAR:

**546** M km

Which is around 700 trips from Earth to the Moon.

### ENERGY CONSUMPTION OF BUILDINGS:

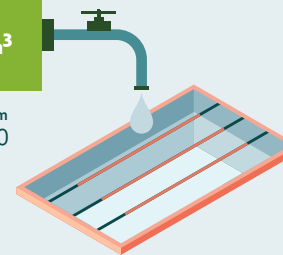

**1121** GWh

= energy consumption of 177,500 European households

### WATER CONSUMED:

**2,072,981** m<sup>3</sup>

While this is less than half the figure from 2019, it's still equivalent to around 830 Olympic swimming pools!

As it has done each year since 2017, BNP Paribas has offset in 2022 the residual emissions from the previous year.

#### PERU

PRESERVING 127,000 HECTARES OF THREATENED AMAZON FORESTS

#### INDIA

CONSTRUCTION OF 13,000 BIODIGESTERS

#### KENYA

PRESERVATION AND RESTORATION OF 200,000 HECTARES OF FORESTS

#### INDONESIA

RESTORATION OF 150,000 HECTARES OF TROPICAL PEATLANDS

THE GROUP'S COMMITMENTS TO REDUCE ITS CARBON FOOTPRINT ARE FULLY PART OF BNP PARIBAS' TRANSVERSAL "GREEN COMPANY FOR EMPLOYEES" PROGRAMME.
